Mikhail Gorbachev
Chairman of the Board
Green Cross International
Geneva, Switzerland

Matt Peterson
President & CEO
US Green Cross International, Inc.
Santa Monica, CA. Office

Dr. Paul Walker
US Green Cross International, Inc.
Washington, DC Office

Dear Mr. Gorbachev, Mr. Peterson and Dr. Walker:

Please find attached our latest [Press Release](#) in our struggle to get public opinion via mass media attention to recover \$350,000 in assets seized by the Indiana Court System illegally. To date we have been unsuccessful in getting our story and the threat of the ending of our sustainable agro-forestry garden work to the public at large.

I am State of the World Forum (SWF) Member # 20827 and felt that since Mikhail Gorbachev was a Board Member of the SWF that the Greencross International, Inc. might be interested in assisting us as our SAF Garden Model can significantly contribute to the poverty reduction goal of the United Nations to reduce by 500,000,000 people those living on \$1 or less a day.

We have come under increased economic destabilization and political harrassment since we presented this SAF Model to the SWF Sustainable Agricultural Round Table in SA, CA in November 1997 as presented in detail on our web page www.hopelausa.org/page22.html.

We would appreciate any assistance especially sending our [Press Release](#) throughout your network as we need investigative journalist, lawyers, law students and social activists to assist us in whatever ways they can.

Yours in service,

George W. Singleton, BA, HD
BRCA, Inc. President
Operation Blackberry Patch Tri-Chairperson

State of the World Forum Member # 20827
