

DE LUBICZ, R. A. SCHWALLER

exoterically an obscure French mathematician, philosopher and Oriental specialist who wrote Le roi de la theocratie pharaonique in 1961 translated in 1982 as Sacred Science: The King of Pharaonic Theocracy addressing the "ancient Egyptian Science and Civilization"; **and** **esoterically** believes a great Pre-Dynastic Egyptian Civilization preceded the **Dynastic** Egyptian Civilization, and was responsible for establishing the "Sacred Science" undoubtedly recorded as the **42 BOOKS OF THOTH** upon which it demonstrated an over 30.000 year length of national societal organization, exquisite public and private monuments many displaying unexplainable engineering technology, brilliant military science, advanced medical, nutritional and herbal science, and unmatched artisans and crafts-persons; first to notice that the **rain weather erosion pattern** on the "SPHINX"/HU natural limestone rock sculpture at Giza shows a greater antiquity than conventional Egyptologists accept.
