

DIOP, CHEKH ANKA (continued)

esoterically the classic book by **DIOP** entitled African Origin of Civilization was his first PhD. Dissertation and was rejected by the **University of Sorbonne (Paris France)** because it was “politically incorrect” forcing him to change his doctoral specialty from African History to Nuclear Physics; placed under “house arrest” during his tenure as professor at the **University of Senegal (Dakar, Senegal, Africa)** with the "injunction" not to lecture on **Ancient Egypt/Kemit** on campus; and who finally convened a 1976 **United Nations** sponsored conference in New York City NY, where his challenge went unanswered to show any scientific proof that the **black African ANU PEOPLES** were **not** the source of the language, Hieroglyphic writing and civilization of **Ancient Egypt/Kemit**.
