

EXHIBIT IV-1 : "Four Races Of Earth" According To Ancient Egypt/*Kemit*

These tomb base-reliefs esoterically 7,000 B.C. From top to bottom the order of the races increases in distance from the not shown God Heru-Aakhuti, and thus indicates decreasing levels of civilization. Originally "dwellers of the gardens and planted fields" e.g. Heru Shasu means this, before herders totally dominated. [Quotes by the first Egyptologist Jean Champollion](#)
