PRESS RELEASE 2/01/2005

“Hope of Annu Sustainable Agro-Forestry (SAF) Certified Training Retreat” May 1 to 21, 2005, Indianapolis, IN. USA.

Ever since my introduction to “community development and service” starting at **Shortridge High School (1962 - 1966)** in Indianapolis, IN. and the **University of Chicago (1966 - 1970)** and continuing through 24 years of research, development and demonstrations in *chronic poverty* abatement; I have yearned for the opportunity to be connected to a “**naturally duplicatable, biologically synergistic, human ontologically designed construct**” that could significantly contribute to the elimination of *chronic poverty* in America and around the world.

Thus it is with great honor and humility that we introduce to you our “**Hope of Annu Sustainable Agro-Forestry (SAF) Certified Training Retreat**” May 1 to 21, 2005 in Indianapolis, IN. This is the second event of our collaborative “**Hope of Annu Sustainable Agro-Forestry (SAF) Poverty Abatement and Terrorism Prevention Partnership and Demonstration (HASAFPATPPD).**”

The “**Hope of Annu SAF Certified Training Retreat**” May 1 to 21, 2005 in Indianapolis, IN. will instruct participants on our proprietary **12 element Sustainable Agro-Forestry (SAF) Model** that when properly installed and operated minimally generates on 1 acre of land annually 150,000 pounds of “certified organic” food and provides 4 full time jobs at twice the minimum annual agricultural workers wage in a specific location.

A. First Phase Objectives from 2005 to 2020

The “**Hope of Annu Sustainable Agro-Forestry (SAF) Poverty Abatement and Terrorism Prevention Partnership and Demonstration (HASAFPATPPD)** has the **First Phase Objectives** by 2010 as follows:

- 1.) **First Phase** establishment in America of a **1 acre Pinion Pine Nut Tree Sustainable Agro-Forest (SAF)** managed by **BRCA/Hope Navajo/Dine’ Indian Nation Project, Inc.** *Co- Directed* by Julie Gorman Begaye and Krystal Begaye on Land trust held lands in the Fort Defiance, AZ. area of the **Navajo/Dine’ Reservation**;
- 2.) **First Phase** submit by June 2010 a **Final Report** to the **UNITED NATIONS “JSED 2002 SUMMIT”** the documented increase in the individual annual income of at least 250% of Julie Gorman Begaye and her family directly participating in the operation of the **1 acre Pinion Pine Nut Tree Sustainable Agro-Forest (SAF)**;

- 3.) **First Phase** establish in America a **Coalition Network** of Poverty Abatement Organizations, Retail Food Cooperatives and Buying Clubs to **acquire and distribute via the Internet “certified organic foods”** from California, Mexico, Canada, West Indies and other parts of the Americas;
- 4.) **First Phase** reestablish in America via intensive renovation and security system installation the 2 acre **John Hope Continuation High School-Van Meter Community Garden** in South Central-Watts, Los Angeles, CA operated as a teaching garden by our **sister organization** the \$6 million grant funded NGO **Youth Opportunities Unlimited, Inc.**, Leon Watson, *Director* (323-789-4977);
- 5.) **First Phase** complete in America at the 6135 Riverview Drive, Indianapolis, IN. **BRCA, Inc. headquarters facility** the renovation of the **BRCA, Inc. headquarters building**, build an attached solar greenhouse and complete the **Sustainable Agro-Forest (SAF)**;
- 6.) **First Phase** establish in America in the Indianapolis, Marion County, IN. area beginning September, 2006 a **10 acre SAF Training Center** teaching the **Sustainable Life Science Curriculum (SLSC)**, the **Certified SAF Operator’s Training** and proper **Applied Nutrition** including establishing a **Cooperative Food Store, Vegan/Vegetarian Restaurant and Cultural Center**; and
- 7.) **First Phase** establish in America in other **BRCA, Inc.** proposed and targeted **SAF Sites** including Los Angeles, CA. area; Cincinnati, OH.; Tucson, AZ.; Bridgeport, CT. and the Navajo/Dine’ Indian Nation **10 acre Sustainable Agro-Forestry (SAF) sites** from “**Project Income**” including that generated from the American distribution of wholesale purchased “certified organic” produce on **Coalition Network member** controlled lands which will grow locally distributed “certified organic” domestic crops in addition to “certified organic” cash crops for distribution all across America.

B. Second Phase Objectives from 2010 to 2020

The “**Hope of Annu Sustainable Agro-Forestry (SAF) Poverty Abatement and Terrorism Prevention Partnership and Demonstration (HASAFPATPPD)**” collaboration has the following **Second Phase** projected objectives over the **next 10 years from 2010 through 2020**:

- 1.) **Second Phase** continue to establish in America from “**Project Income**” including that generated from the American distribution of wholesale purchased “certified organic” produce 10 acre **Sustainable Agro-Forestry** sites on **Coalition Network member** controlled lands which will grow locally distributed “certified organic” domestic crops in addition to “certified organic” cash crops for distribution all across America; **and**
- 2.) **Second Phase** establish internationally outside of America from “**Project Income**” including that generated from the American distribution of wholesale purchased and “certified organic” produce and grown “certified organic” cash crops 10 acre **Sustainable Agro-Forestry** sites on **Coalition Network member** controlled lands especially targeting the 1,000,000,000 people living on \$1.00 or less a day (USD).

C. Third Phase Objectives from 2020 to 2030

The "Hope of Annu *Sustainable Agro-Forestry (SAF) Poverty Abatement and Terrorism Prevention Partnership and Demonstration (HASAFPATPPD)* collaboration has the following **Third Phase** projected objectives over the next 10 years from 2020 through 2030:

Third Phase establish "**Sustainable Economic Development**" Villages incorporating modern *sustainable technologies* including *Sustainable Agro-Forestry* sites featuring **Paulownia super trees** and **Pi-Water production**; "**Nutritional Herbology**"; **Earth Homes** integrated with **Geodesic Dome Solar Greenhouses**; passive and active **Wind and Solar Energy**; **Hydrogen Fuel Cell** home and Cottage Industry electric generators inhabited by people of all "so-called" races (One Race), creeds and social religions (One God) where the aboriginal light and sound yoga "**Science of Spirituality, Inc.**" as promulgated by **Sant Rajinder Singh Ji** accessed through <http://www.sos.org> is exemplified as in **Ancient Egypt/Kemit**.

MULTI- MEDIA LECTURES,
GROUP & ONE ON ONE
INSTRUCTIONAL SESSIONS
(**OPTIONAL SAF MODEL ELEMENT**)**

Weekday # 15: Conclusion and Certification Exam

SAF Field Practicum _ 4 hours/day

**May 21 - 22, 2005: a.) Forth Weekend SAF Installation & Certification
Exam Makeup
b.) SAF Certificate Award Dinner and celebration
c.) Departure**

2/01/05 PRESS RELEASE ADDENDUM

Johannesburg Summit 2002 (August 26 to September 4, 2002): Sustainable Development Summit: Asia Regional Roundtable: Central and South Asia, held in Krygyzstan, July 30-August 1, 2001; Report Extract: Page 3 Concern 15. (Emphasis Added)

“Peace And Security Are Fundamental For Achieving The Objectives Of Sustainable [Economic] Development So That People Can Live Under Conditions Where Their Personal Safety Is Not Compromised And The Natural Resource Base And Infrastructure Can Provide For Sustainable Livelihoods. The Complex Relationships Between Political Conflicts And Unrest And Sustainable Development Are Often Underestimated And Are Not Properly Addressed, Both At The Local, As Well As The Regional And International Levels.”

Not Only Are Economic Development, Social Progress And Protection Of Environment Impossible During Times Of Conflict, But A Lack Of Natural Resources, Such As Land Or Water, Along With Poverty And Social Marginalization Often Represent The True Underlying Causes Of Conflicts. At The Same Time Poverty And Social Hardships Could Lead To Involvement Of Some Local People In Terrorist Activities, Organized Crime And Drug Trafficking. Mountain Areas, Along With Some Arid And Coastal Areas, Where There Are Particularly Fragile Eco-Systems, Arable Land Is Particularly Scarce And The Population Often Direly Poor And Lacking Access To Basic Social Services, Are Unfortunately Areas Where Conflicts And Unrest Are Common. Addressing The Underlying Economic, Social And Environmental Causes Of Conflicts Is The Best Possible Way Of Preventing Them. Thus, [Sustainable Economic] Development And Security Are Inalienable [Human Rights] Concepts.”
