

Shortridge High School Alumni

Dear Brothers and Sisters:

My financial backer and Mother Louise E. Hall and I have gotten ourselves into some deep legal and socio-political economic trouble with the oligarchs.

[www.hopelausa.org/page22.html]

I remember Michelle Johnson Miller first introduced me to Ferdinand Lundberg's 1969 classic **The Rich and the Super Rich** ___ those "Britannica-philies" of which care not to end *chronic poverty* that has 45% of the world's people living on \$3 or less a day as they profit from it and who out right since 1877 control America as detailed in Anton Chaitkin's 1984 classic **Treason in America**.

Our little grass roots chronic poverty abatement RD & D non-profit center "accidentally" around 1985 thru the Grace of God rediscovered a *chronic poverty* abatement technology that has for thousands of years been covered up in the anthropology, history and archaeology of Ancient Egypt/*Kemit*, Ancient Israel, Ancient Peru, Ancient Mexico and Ancient America. Most recently this technology called "***Sustainable Agro-Forestry (SAF)***" was classified "national security" in the taking of the Northwest Territory from the **Miami Indian Federation** including the state of Indiana from 1790 to 1830.

[www.hopelausa.org/page5.html]

Yes, the **Miami Indian Federation** was based on ***Sustainable Ago-Forestry*** with their capital city of "Blackberry Patch" within a 300 acre **SAF** garden supporting over 20,000 people at what is now known as Fort Wayne, IN. The **Miami Indian Federation** under Chief Little Turtle (1752-1812) destroyed to the man a 4,000 man "poorly trained" army sent by the USA in 1790. This was America's first war after the winning of the Revolutionary War by President George Washington as part of his brilliant nation building strategy capable of defending America's western border from Great Britain and French aggression.

Hoosiers and America has not forgotten this defeat and it is the basis of why the **Miami Indian Nation** based in Peru IN. is not recognized as a Native American Tribe with BIA rights, privileges and protection stripped in the 1920's under the KKK directed from IN. Washington DC. American government.

"Why is this "national security" now and has been covered up by the conquering European nations since 422 BC? Because how a people feeds themselves and what they eat is just as much a civilization defining element as it is to an individual human as to who that person is ___ in hamony with nature and God or out of harmony with nature and God.

A superior way of growing food as the **SAF** technology is, is connected to a superior health status from eating that food. The "**nutritionally related diseases**" that are amongst the top 15 killers of Americans of cancer, stroke, heart attack, Alzheimer's Syndrome, septicemia, arteriosclerosis, diabetes, liver and kidney disease, pneumonia and obstructive lung diseases are clearly avoidable from "organically grown food" and eating in harmony with nature as presented in the bible Genesis 1:29 vegan/vegetarian.

Thus we were not surprised to find out that the **Navajo/Dine' Native Americans** not only used the **SAF** Garden model but displayed a superior health status that became a "national security secret" as the **Navajo/Dine'** woman were vegan and naturally and healthily amenses (without menstruation) capable of in a hand to hand combat killing US Calvary soldiers. This was also part of the SAF Garden model technologu benefits. **Note** that Roman General Julius Caesar experienced the same phonomena as Gaulic vegan woman were killing his Roman legionnaires in hand to hand combat. He simply began feeding his soldiers a vegetarian diet.

For those wishing to go beyond Tavis Smiley block buster best seller The Covenant with Black America and get directly involved in ending *chronic poverty* in America's urban and rural enclaves and in Africa and Asia and the rest of the world please take the time to read the detailed www.hopelausa.org and its extensive references and do what you can starting with praying for us as we are "going for keeps."

[www.hopelausa.org/page13.html]

The great Shortridge HS alumni and multi-cultural elder Kurt Vonnegut's 2005 **A Man Without a Country** has capsulated in his gem of a little book the socio-political economic crisis in America and as a result the world.

I deeply believe that social equality vision that briefly created the Shortridge High School we attended was and is still alive through us alumni and it is time to "bust a move" to restore the High School as the current IPS administration wants to do, and then restore the neighborhoods around the SHS to a level of prosperity and humanity once again. We have 2 modest community garden sites at 3714 and 3445 N. Kenwood Avenue and it grieves us the poverty depravation and lack of hope that exists there.
